

PRODUCT LABORATORY TEST REPORT

Sample / Demonstration Report

Product	Electric Immersion Water Heater
Model	EWH-1500
Manufacturer	ABC Electrical Appliances Pvt. Ltd.
Rated Voltage	230 V AC
Rated Frequency	50 Hz
Rated Power	1500 W
Date of Testing	02 September 2026
Laboratory	ABC Product Testing Laboratory

1. Objective

To evaluate the safety and performance of the electric immersion water heater according to the applicable Indian Standard requirements.

2. Product Description

The tested product is an electric immersion water heater intended for heating water in domestic applications. The appliance consists of a heating element, insulated handle, power cord, plug, and indicator lamp.

3. Test Parameters and Results

Test	Result	Status
Rated power test	1492 W	Pass
Input voltage test	230 V	Pass
Insulation resistance	25 MΩ	Pass
Electric strength test	No breakdown	Pass
Leakage current test	0.32 mA	Pass
Earthing continuity	0.08 Ω	Pass
Temperature-rise test	Within limit	Pass
Mechanical strength	No damage	Pass
Marking and labeling	Compliant	Pass

4. Materials and Construction

- Heating element: Stainless steel
- Handle: Heat-resistant polymer
- Power cord: PVC insulated
- Plug: 3-pin, 6 A
- Body: Corrosion-resistant metal
- Indicator: LED

5. Test Conditions

Ambient temperature: 25 ± 5 °C
Relative humidity: 50 ± 10%
Supply voltage: 230 V AC

Frequency: 50 Hz

6. Test Observations

The product successfully completed all specified electrical safety, mechanical, temperature, and marking tests. No abnormal heating, electrical breakdown, insulation failure, or mechanical damage was observed during testing.

7. Conclusion

Overall Result: PASS

Based on the tests performed, the Electric Immersion Water Heater – EWH-1500 satisfies the specified laboratory test requirements.
